MATHEASE TUTORING

AVOID THE BENCH

ARE POOR GRADES HOLDING BACK YOUR ATHLETE?

DID YOU KNOW...

Mathease Tutoring has an excellent track record of helping failing students raise their grades and aiding struggling students before there's an issue.

How do we do it?

In our tailored private sessions, we reinforce the student's class material and ensure mastery so they're ready for the test. We also build a strong math foundation by filling in missing core skills, so math is no longer a problem.

When should students start tutoring?

ASAP! It's much harder to raise a failing grade than to maintain a good one. Start early and **we'll keep them off the bench.**

Busy schedules?

Don't sweat it! Not only are we open from 2:00 - 9:30 Monday through Thursday, we're open all day Sunday.
